How to activate your Authentication Code

1. Introduction

In this guide, the activation of an authentication code and therefore the upgrade of GNSS options for all Leica Zeno hardware is documented, with the use of different Leica Zeno software available. Upgradable devices are:

- GG03/GG04/GG04 plus
- Zeno 20 Windows
- Zeno 20 Android
- CS25 GNSS

The upgrade of the aforementioned devices can be implemented with the help of different software.

Upgradable device	Software to be used for the activation (click on the hyperlink)
GG03/GG04/GG04 plus	Zeno Mobile/Connect
Zeno 20 Windows	Zeno Tools
Zeno 20 Android	Zeno20 Mobile/Connect
CS25 GNSS	Leica Zeno GNSS Upgrade Key

2. Zeno20: Zeno Mobile /Connect

- 1. Connect to your antenna via Zeno Mobile
- 2. Press the 3 dots next to Zeno 20
- 3. Open the "Upgrade Antenna" option provided in the Antenna Settings

3. Zeno Tools

Before you activate your authentication code by using Zeno Tools, the GPS must be switched on manually through the device settings.

3.1. GPS activation

- 1. Open device Settings
- 2. Tap on "System"
- 3. Open GPS settings
- 4. Press the left arrow to access the "Power Manager"
- 5. In the "Power Manager" you can see the "GPS Power Control"
- 6. Switch on the GPS

3.2. Authentication Code Activation

- 1. Open "Zeno Tools"
- 2. Tap on "GNSS Upgrade Key"
- 3. Check if the COM Port is the correct one
- 4. Click on Authorization Code field to type the Auth-Code
- 5. Press OK for the activation process to start

4. Zeno Mobile/Connect

- 1. Connect to your antenna via Zeno Mobile/Connect
- 2. Press the 3 dots next to your antenna
- 3. Open the "Upgrade Antenna" option provided in the Antenna Settings

*	#208300 GG04 plus Not Connected		Info Antenna Information		

4. Tap on "Set new authentification code" to enter your Auth-Code

- 4. Leica Zeno GNSS Upgrade Key
 - 1. Open "Leica Geosystems" folder from your Desktop
 - 2. Search for "GNSS Upgrade Key"

3. Open GNSS Upgrade Key

cable.	
COM Port:	
Authorization Code:	
Authorization Code:	

- 4. Click on the arrow on the right to see the available com ports (see Figure above)
- 5. Select the com port, through which your antenna is connected to your device
- 6. Type the Authorization code at the corresponded field
- 7. Press OK to start the process
