– make your business fly

AIBOTIX

High resolution

The wide 10" field monitor displays data in HD quality. The high-contrast display helps to see all details of your inspection objects.

Long range [1]

The Aibotix Ai DLVP supports your job in long ranges up to 1,000m. Work with encrypted real-time data with zero latency and a 5 GHz connection.

Robust

The Aibotix Ai DLVP will be delivered in a robust hard case, safely stored together with the accessories.

Compatibility

The Aibotix Ai DLVP is compatible with Leica GEB242 battery and the Leica TRI100 tripod.
