## Our Commitment. Your Success.

The relationship Leica Geosystems enjoys with its customers can be defined in one word: Partnership. That is our commitment to you, true partnership that includes a full circle of Active Customer Care support and services around the globe, anytime and anywhere. Our job as your reliable partner is to cover all the angles, to provide quick and easy communication between site personnel and skilled experts, to keep you and your products up-to-date, to understand the issues and anticipate your needs. Leica Geosystems Active Customer Care is one of the most comprehensive service and support networks in the world. It allows us to stay close to our customers, working together to resolve issues and plan even better product solutions for the future. It is our commitment to your success.

## Customer Support

Support via email on working days from 8 a.m. to 5 p.m. CET online access to experienced, trained professionals who work with you to address instrument related questions as they arise. Support covers operational questions, instrument configuration issues and general field workflow advice. Support for technical hardware questions, hardware configurations and repair requests.

## Firmware / Software Maintenance

Ensures that you keep up-to-date with the latest productivity and QA enhancements in firmware solutions. System firmware upgrades:

- SPAN
- LiDAR Firmware

## Hardware Maintenance

System calibration including Z+F LiDAR factory calibration, general system functionality check, calibration needs to be performed within the CCP validity period.

NOTE: In case the calibration will be performed outside the CCP validity period, the calibration needs to be paid additionally. For CCP Blue: In case the calibration cannot be performed due to hardware malfunction, the repair costs are not included in the CCP.

## Extended Warranty

Extended first year factory warranty. You can return the instrument to the service centre or factory to repair. All labour time for diagnosis and repairs, app spare parts needed, and a system restore to factory specifications are covered. The CCP will need a re-activation fee and system check if the service was not continuous. Leica Geosystems instruments come standard with a one-year warranty.

## Backup System

As part of the premium CCP Gold Contract, a loaner system will be available during warranty repairs. Loaner system with availability based upon zone of operation. This minimises downtime and keeps you working until your instrument is back from the service center. The loaner instrument will be supplied from the Selling Unit within 48 hours and be equivalent with the customers system.
