## Product Release Leica Infinity

Dear colleagues,

A new release of Leica Infinity is available v4.1.1. This is an engineering release that addresses specific quality issues reported from the market.

Please read the attached release notes for details to what is addressed with this release.

## Ordering and Availability

Infinity v4.1 is available for immediate download from myWorld @ Leica Geosystems portal. [myworld.leica-geosystems.com](http://myworld.leica-geosystems.com)

## Installation Information

Leica Infinity v4.1	Build	Release Date
	45440	22 June 2023

With an active CCP or Leica Infinity subscription license, users will be able to update to this new version. Confirm that your Maintenance End Date is on or after the date listed above before installation.

New users can download the latest version from the Leica Geosystems [myWorld](http://myWorld) support website.

## Infinity subscriptions

Infinity is also available as a 1-year subscription license. With the subscription license, customers always have access to the latest features of their chosen modules.

[www.leica-geosystems.com](http://www.leica-geosystems.com)

## Customer Care Packages (CCPs)

All new Infinity licenses are delivered with a free 90-days maintenance period. Subscribing to a CCP package provides your customers with Active Customer Care and the ability to download the current release version.

It is highly encouraged that a CCP is always included with an Infinity order as this product continues to grow with features and functionality. With it, your customers can freely upgrade their Infinity software and benefit from the added functionality.

**Please note:** a CCP does not cover access or usage of new license protected modules or options.

Kind regards,

A handwritten signature in blue ink, appearing to read "KH".
