Leica Geosystems
Licence Activation Guide

Licence Activation for GRX1200 Series

Dear valued customer... Thank you for purchasing a licence for our product. The following instructions will guide you through the licence activation process.

☞ Please register your product at myWorld.leica-geosystems.com, our internet platform for our customers. myWorld provides 24/7 access to all information you require to actively manage your equipment. Here, detailed information on individual products and their service history can be found. The information also aids in maintaining the product value while at the same time enabling maximum efficiency and productivity.

Activate licence   ☞ The procedure is valid for any licence key.

Step	Description
☞	You can download licence keys from myWorld. Refer to "Download licence".
☞	To upload a licence key, store the licence key file (for example L_2500123.key) in the \SYSTEM directory of the data storage device. Open a browser window and access the web interface of the GRX1200 Series receiver.
1.	Go to **Configuration\Firmware upgrades**.
2.	To type in a licence key: In the **Licence upgrades** section, enter the licence key in the empty text field and activate the radio button.	To upload a licence key: The licence key is shown in the web interface once loaded onto the data storage device. Activate the radio button before the listed file.
	Click **Upgrade**. The licence is activated and can be used.
☞	If a software maintenance licence was activated refer to "Update software" to update the software on the product.

Download licence   ☞ The procedure is valid for any licence key.

Step	Description
1.	Go to www.myworld.leica-geosystems.com and log in.
2.	Go to **myProducts** and select your product.
☞	If your product is not in the list, click **Add Product**.
3.	On the **Overview** tab, click **Download keys**. In the next window, click **Save** and select a directory to save the file to. Click **Save**. Copy the *.key file to the \SYSTEM directory of the data storage device.
